

# Look at What's New in Ascend Math!

Ascend Math just keeps getting better. The reason is you, our Partner Schools. You told us how Ascend Math could be even better, and we listened. Now, we are pleased to unveil Ascend Math 5.0 including the improvements most requested by you.

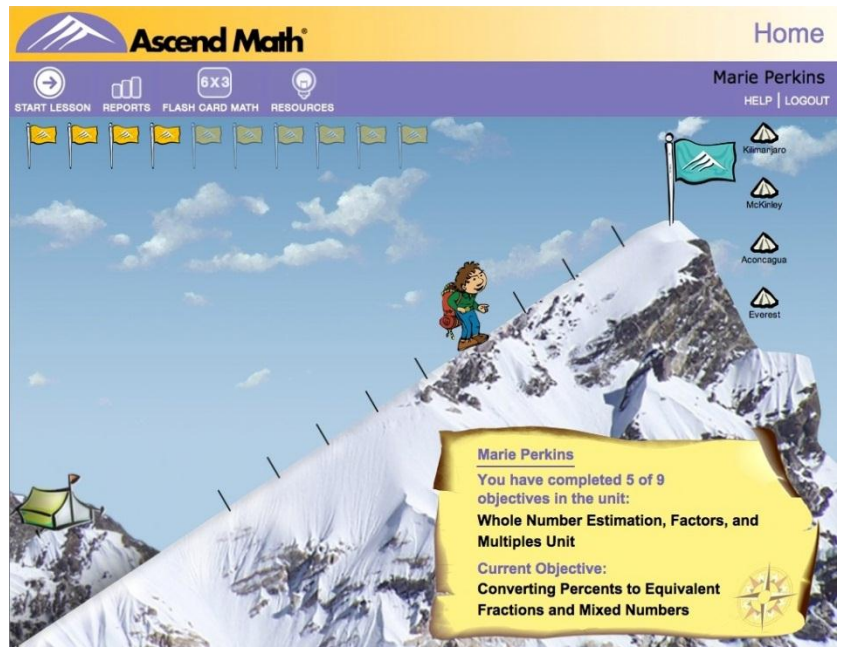

**You asked** us to make it easier for students to see how they are progressing.

**You asked** for more student motivation.

## Introducing the all NEW Ascend Climber

Now students will see a flag for each of the units in their level at the top left corner of the sky with completed units highlighted to show their progress.

When students complete a level they'll receive a "mountain" badge. The tallest and most impressive mountains in the world are featured on the badges they can earn.

**You asked** that Ascend Math work on tablets and devices that do not support Flash. Videos can now be played on any device that supports HTML. All features of Ascend including the Level Recommendation, Pre Assessments, Study Guides, Videos, Practice Problems, Reviews and Post Assessments are now functional on tablets. Soon Explorations will be available in a non-Flash version as well.

**You asked** for new content. Ascend Math Geometry is available for fall 2012.

**You asked** us to make it easier for students to see everything on the screen. The new wider screen size means an end to horizontal scrolling.

**You asked** us to make your reports easier to find. The new Reports Menu shows all reports under one tab and allows you to designate which reports are your Favorites.

What do you want to see in the next version of Ascend Math? Let us know. Send your ideas to [suggestions@ascendmath.com](mailto:suggestions@ascendmath.com)
