Student Spotlight

Now more than ever we would love to hear about your students' success as you move to remote learning! Tag us in a post on your favorite social media outlet and use [#AscendStudentSpotlight](#)

Summer School

Are you considering Ascend Math for your summer school program? We would be happy to assist with your planning. Please reply to this email and we will reach out to you.

Gold Medal Award Nominees

Congratulations to the following Gold Medal Nominees. It's not too late to submit your classroom, school, or district before the April 15th deadline. [Submit Your Nomination](#).

Austin Area Schools, PA
Patricia Paetow High School, TX
St. Joseph Catholic School, SC
Crosby Middle School, TX
Kilgore High School, TX

Product Updates

Ascend Math now has a **HiSet Course**. Many of our alternative schools and adult learners are benefiting from this new course. If you are interested in finding out more about the HiSet pathway, please reply to this email and we will provide more information.

Are your students working on *Assigned Objectives*? You can now view assigned objective right from your *Live Student Tracker*. You can also print the study guide for the assigned objectives in the same way you print study guides for the prescriptive study plans. Select the Assigned Objectives button on your *Live Student Tracker*.

to receive a set of Ascend Math pencils for your entire class!

Model Educators & Model Schools

View all Model Educators on the Ascend Math [National Hall of Fame Page](#).

Students can now view *Assigned Objectives* on their *Student Progress Dashboard*. Students can access their Dashboard by selecting the Progress icon on their home page. To view their Assigned Objectives have them choose the radio button next to *Display Assigned Objectives*. Completed objectives will provide the completion date, time on task, and the Post Assessment Score.

Tip of the Month

Remind students to watch the video until all 4 arcs are green and the percentage is 90% or higher. After achieving both requirements on the Video Progress Monitor, a check mark will appear. After completing each portion of the objective, the Post Assessment will unlock.

Tell-A-Friend

We would love to help the students of your friends or fellow educators! [Visit our website](#) and let us know who could benefit from Ascend Math! As a thank you we will send you an "I Teach Extraordinary Kids" t-shirt as a gift.

Partner School of the Month

Congratulations to **Sierra Elementary School** in Truth or Consequences, NM our March *Partner School of the Month*!! Since the beginning of August, almost $\frac{3}{4}$ of their students have completed 1 or more levels in Ascend, with $\frac{1}{4}$ students completing 2 or more levels!!

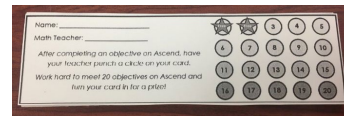

“The 5th grade students of Sierra Elementary Complex have been working tenaciously to improve their math skills using the Ascend Math program during the 21/22 school year. The teachers have helped by providing as much positive support and feedback as possible. We constantly remind the students of how this program will help them identify and fill the gaps in their learning that have happened because of the Covid pandemic. We have found that giving the students a printed copy of the study guide and encouraging them to take notes from the video helps them tremendously. We also do small in-class celebrations when we hear a yodel because someone has successfully completed a unit, or whenever a student levels up. Students receive two certificates of completion (one for home and one to be displayed in the hallway) each time they level up and can also earn 500 tickets as part of our positive behavior rewards program. These tickets can be redeemed for prizes in our auctions. We have just begun implementation of another reward opportunity for the students also. Each student has a punch card and will receive a prize after getting 20 punches to complete the card. Each objective that is successfully completed results in one punch. “

–*Jim Crofford* – 5th Grade Math Teacher

“I just wanted to start out by saying that this is the first year that I have ever used Ascend Math in my classroom. I have had to learn the program probably just about as much as the students. Most importantly, I have watched the students increase their growth. We are starting to implement using printable “punch cards” to track completed objectives.

Overall, I think this is a wonderful intervention. I also believe that this program fills in all the student’s math deficiencies.”

– *Kelly Madrid* – 4th Grade Math Teacher
