FOR IMMEDIATE RELEASE

SCHOOLS RECEIVE 2017 GOLD MEDAL AWARDS FROM ASCEND EDUCATION

Shreveport, LA 5/22/2017 Ascend Education announced today that a record 32 schools are being recognized as Gold Medal schools this year.

The Gold Medal Award was established in 2010 to honor the schools or districts that best demonstrate a dedication to ensuring that all students become successful at math. The Gold Medal nominees all used Ascend Math to supplement their math instruction to achieve results better than they would in the normal classroom environment. All 32 Gold Medal schools or districts will receive an award commemorating their success.

“These thirty two schools represent some of the best and most successful math implementations in the nation and beyond,” said Kevin Briley, CEO of Ascend Education. “In each of these schools students made tremendous strides far beyond what they have done in the past. We are extremely proud of what they have accomplished this year.”

The 2,662 students in these 32 Gold Medal schools mastered 95,454 math objectives. Most students gained from 1 to 5 grade levels in math. The complete Honor Roll of all Gold Medalists can be viewed at http://ascendmath.com/gold_2017.html

About Ascend Math®

Ascend Math is math intervention that provides each student with a unique study path through skill gaps at each level. Individual study plans are prescriptive, adaptive, and automatically assigned. In addition, Ascend Math provides all the interactive instruction each student needs. Students using Ascend fill skill gaps quickly and often improve one to two grade levels the first few months. Real time data makes progress monitoring easy and gives teachers a quick snapshot on what needs to happen next.

Ascend Math is written to rigorous state standards. Instruction is delivered in a logical math sequence and students can progress at their own pace and track their own progress and success. Ascend Math® is currently used by hundreds of schools and districts serving more than one hundred thousand students throughout the U.S. and Canada. Visit www.ascendmath.com
