**FOR IMMEDIATE RELEASE**

**ASCEND MATH ANNOUNCES ADDITION OF SCHOOL AND TEACHER SUMMARY DASHBOARDS**

**Shreveport, LA 4/20/2018** Ascend Education has announced the addition of new School and Teacher Summary Dashboards to its Ascend Math program.

The School Summary Dashboard displays a summary of all progress in an Ascend Math school. The dashboard may be saved or printed. Charts and data provide valuable information on student's usage and growth for last week and the current school year:

- Average objectives completed last week
- Average hours worked last week
- Level Completion – 1/2 level to more than 2 levels gained
- Level Growth: starting vs. current level
- Students completing a level last week

The Teacher Summary Dashboard is a summary of progress made by all classes assigned to a teacher. It includes the same charts and data as the School Summary Dashboard for that teacher's classes.

"Teachers have asked for an easy way to see all their classroom data at once," said Kevin Briley, CEO of Ascend Education. "These could easily be the most valuable additions we've made to Ascend Math thus far. With these new dashboards, administrators and teachers can review everything needed to monitor student math progress in just seconds."

To learn more about Ascend Math and our School and Teacher Summary Dashboards educators can visit us April 25-28 at the NCTM Annual Meeting and Exposition, booth 471.

**About Ascend Math®**

Ascend Math is math intervention that automatically provides each student with a unique study path through skill gaps at each level. Individual study plans are prescriptive, adaptive, and automatically assigned. In addition, Ascend Math provides all the interactive instruction each student needs. Students using Ascend fill skill gaps quickly and often improve one to two grade levels the first few months. Real time data makes progress monitoring easy and gives teachers a quick snapshot on what needs to happen next.

Ascend Math is written to rigorous state standards. Instruction is delivered in a logical math sequence and students can progress at their own pace and track their own progress and success. Ascend Math® is currently used by hundreds of schools and districts serving more than one hundred thousand students throughout the U.S. and Canada.
