**FOR IMMEDIATE RELEASE**

**ASCEND MATH ANNOUNCES ADDITION OF NEW ALGEBRA READINESS CUSTOMIZED PATHWAY**

**Shreveport, LA 5/8/2019** In honor of teacher appreciation, Ascend Education has announced the addition of a new Algebra Readiness Customized Pathway to support teachers around the country.

The Ascend Math Algebra Readiness Course builds understanding by linking together algebra concepts within and across grade levels:

- **Diagnoses** student skill gaps providing a deep dive into logical prerequisites based Algebra I standards taught concurrently in the Algebra class.
- **Prescribes** individual learning paths on these prerequisites. Students work only on the objectives they do not know in a sequenced order and build understanding by linking together concepts within and across grades.
- **Motivates** students through award winning online instruction and explorations.

When implementing Ascend Math Algebra Readiness, students work at their own pace filling gaps quickly. Most educators choose to have students attend Algebra Class while using Ascend Math in a second math elective, remediation block or at home.

“Since passing Algebra I in ninth grade doubles a student’s chances of graduating high school, this new offering directly supports our mission,” said Kevin Briley, CEO of Ascend Education. “Ascend Education's mission is to help 10 million students graduate high school by helping students find success in Algebra I.”

**About Ascend Math®**

Ascend Math is personalized online math instruction that provides each student with a unique study path through skill gaps at each level. Individual study plans are prescriptive, adaptive, and automatically assigned. In addition, Ascend Math provides all the interactive instruction each student needs. Students using Ascend fill skill gaps quickly and often improve one to two grade levels the first few months. Real time data makes progress monitoring easy and gives teachers a quick snapshot on what needs to happen next.

Ascend Math is written to rigorous state standards. Instruction is delivered in a logical math sequence and students can progress at their own pace and track their own progress and success. Ascend Math® is currently used by hundreds of schools and districts throughout the U.S. and Canada and has helped over two million students achieve success in their math studies.
