Student Spotlight

Now more than ever we would love to hear about your

Announcing the 2022 Gold Medal Winners

During the 2021-2022 school year, students and teachers worked hard to fill skill gaps. Many of our Ascend Math schools reported growth on high stakes tests and most students gained from 1 to 3 levels in Ascend Math! Thank you to our Gold Medal schools for supporting their students and sharing their learning models to help other educators successfully implement programs to address unfinished learning.

The over 5,100 students in our 37 Gold Medal schools have completed more than 71,000 objectives this year! Each Gold Medal school implements Ascend Math in their own unique way, and yet all schools achieved great success in fulfilling their bold goals. [Find out what success looks like to our Gold Medal schools.](#)

Summer School

Will your students use Ascend Math for summer school? If so, [please take this 30-second quiz](#). Or contact your local representative or our support team with any questions you may have.

If your students will not be using Ascend Math for summer school, [please complete our brief getting started guide](#) that will assist in a smooth transition into the new school year.

Partner School of the Month

Congratulations to **Longfellow Elementary School** in Riverside, CA, our May Partner School of the Month! In just 5 months, 229 of their 3rd

students' success as you move to remote learning! Tag us in a post on your favorite social media outlet and use [#AscendStudentSpotlight](#) to receive a set of Ascend Math pencils for your entire class!

through 6th graders who have worked over 10 hours in Ascend Math have averaged growth of 1.1 grade levels and 13% of these students have completed 2 or more grade levels. Students at Longfellow Elementary have shown a gain of 47.54% in their Pre and Post Assessment attempts!

Finish Stronger

Our partner schools in Bibb County Alabama have an exciting theme this month, "*Finish Stronger May*"! With the end of the school year in sight, they are encouraging students to finish the school year strong. Classes are competing against each other to see who completes the most objectives. Teachers can easily track the number of objectives completed each week by accessing the Activity Completion Report. Let's all finish the school year strong!

Product Update

Flash Card Math reports are now available to view students' individual results. The report is a date ranged report and displays the student's most recent attempts during the date range selected, with a maximum of 10 attempts. **UPDATE**

To access the Flash Card Math Student Report select Flash Card Math under the Reports tab. Next, select Flash Card Math Student Report. Create the report by selecting a Class, Student, and a date range. You can choose your own start and end date or select 7 days, 14 days or 30 days from the Time Frame dropdown menu. Select Create Report to view the report in a separate tab or select PDF Report to download the report.

Students can now view their Quiz results on their Student Progress Dashboard. Students can access their Dashboard by selecting the Progress icon on their home page. To view their Quiz results have them select the radio button next to Quizzes. Completed quizzes will provide the Quiz Name, Time on Task, the Date Completed, Status and their Score.

Tip of the Month

Encourage and reward your students' success in Ascend Math by presenting certificates to them!

To print certificates:

1. Select Certificates under the Reports tab.
2. Choose Individual or Batch Certificates.
3. Create certificates by selecting a class, student, level and type of certificate. Click Create Certificate. The certificate will open in a separate tab and is ready to print.

If you need additional help, click the Help button while on the Certificates page. To access additional certificates, visit our Rewards and Resources webpage.

Free Training Webinars

We are pleased to offer free, live webinars on various topics. [Visit our Training Center](#) to view the calendar and sign up for the webinars that interest you. Each topic is available on different dates and times. You can copy the webinar to your calendar if you would like.

Virtual Backgrounds

[Our Rewards and Resources page](#) now has free virtual backgrounds available to save and use during your virtual meetings! Come check them out! Instructions are provided, if needed.

6 Things You Need to Know

You can find helpful tips in getting started by viewing the *Six Things You Need to Know*. Once you are signed into Ascend Math, click on the *Administration* tab, then select the *Six Things You Need to Know* link. You will find information grouped by subject. Click a subject bar to find out more.
