What's New In Ascend Math

Our team has been busy making updates! To learn more about all the wonderful enhancements we have made recently, read about them in [What's New in Ascend Math](#).

Partner School Of The Month

AMERICAN SCHOOL
OF PARIS

founded 1946

American School of Paris students continue to make meaningful progress through Ascend Math, demonstrating strong engagement and commitment to their learning goals. Over 46% of students have successfully completed one or more levels, reflecting steady academic growth and perseverance. In the last week, 3 students completed additional levels.

“We have enjoyed watching our students grow this year in confidence and in their skills through the use of the Ascend math program. Students gained confidence in their math abilities through the Ascend Math program and demonstrated their growth by successfully applying new skills during classroom math assessments. Their academic progress was reflected in increased MAP scores, showing measurable improvement in math achievement. Students were highly engaged in the program, often asking for additional Ascend time because they were motivated to reach the next level.” Stephanie Jambga, Teacher

Their students are working hard and have completed over 1,000 learning objectives this academic year! These accomplishments highlight the positive impact of personalized instruction and consistent practice, leading to confidence and academic success.

TIDBIT TUESDAY

★ Ascend Math is
Celebrating Teacher
Appreciation Week! ★

TEACHING IS A
WORK OF HEART

ascendmath.com

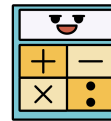

Ascend Math now offers a weekly series of fun, math-related activities related to current events. These activities offer ideas for project based learning to promote student conceptual understanding and engagement. Use these activities for entry tickets, exit tickets, extension activities and more! The posts are also all available on our website. Follow us on [Facebook](#) or [Instagram](#) to see the weekly posts! #AscendMathTBT

Tip of the Month

Study guides are an important component of every student lesson. Students can type, write, or draw on their study guides within the Ascend Math interface. Then save or print them out. We explain all the ways study guides can be used [in this useful guide](#).

Math Fun

Why was geometry class taking so long?

Product Updates

School administrators can now control when students are able to access Ascend Math with our new Curfew feature. Simply configure the approved access times in the Administrator Settings menu. Learn more about the Curfew feature and other updates in [What's New in Ascend](#).

NCTM Effective Teaching Practices

Discover how Ascend Math supports NCTM's Effective Mathematics Teaching Practices through personalized learning, targeted instruction, meaningful student discourse, and actionable data. Our guide explores the eight research-based practices and how Compass Guides help educators create purposeful, concept-driven math instruction.
