The Return of March Mathness!

Here is a fun way to use the NCAA March Madness Tournament Bracket in your math lessons. Visit the [Ascend Math Blog](#) and use the [Ascend Math Graph Exploration](#) to plot the distribution of team colors and mascots by referring to: [How to pick your NCAA tournament bracket based on team mascots](#) and [Why you should always pick blue and orange teams in the NCAA tournament.](#)

Then enter our contest by submitting other NCAA tournament related math problems. You could use the graph exploration, another Ascend Math resource or simply submit a problem. Your submitted problems will be featured on the [Ascend Math Blog](#) with the name of your school and class. The class with the most engaging questions will receive a \$50 Visa gift card.

Check the [Ascend Math Blog](#) regularly for more fun math problems. Send your ideas for March Mathness math problems and activities to marchmath@ascendmath.com.

Gold Medal Award Nominees

Congratulations to the following Gold Medal Nominees. It's not too late to submit your classroom, school, or district before the April 19th deadline. [Submit Your Nomination](#)
