Math Fun

Gold Medal Announcement!

Congratulations to all the Gold Medal schools, big and small. This school year saw the largest and most impressive group of Gold Medal schools ever. Check out this year's hall of fame at www.ascendmath.com/gold_2018

Student Spotlight

Congratulations to the students at Swanton and Lakeside Middle School for achieving the Top 10 Ascend Math Achiever Status!

Tip of the Month

Are you regularly checking your Class Dashboard? Your Live Student Tracker? If not, you're working too hard. The Teacher Dashboard, Class Dashboard, Live Student Tracker and Student Progress Summary were created at the request of teachers like you to make progress monitoring easier. Get to know them!

Product Update

12,000 students voted and we're excited to introduce two new games to the Ascend Math Base Camp Store!

Silly Sub: Guide a submarine for as long as you can, but watch out for the sea mines! How long can you last, captain?

Social Mania: Grab all the likes to complete the digital maze, but don't get caught by the troll-moji. Use power-ups to frighten and defeat bad guys.

Partner School of the Month

Congratulations to White Hill Middle School, our Partner School of the Month! White Hill students have spent more than 2,000 hours working in Ascend and completed a total of 3,400 objectives this year! As a result, 54% of White Hills' students using Ascend have improved one or more grade levels.

"We use Ascend as a part of our intervention program. Our teachers love the individualized, sequential learning Ascend programs for students to ensure they build foundational understanding at their level before moving on to more difficult concepts. The teaching videos are a big plus, especially for our students who struggle with reading comprehension. The Live Student Tracker is a powerful tool I use daily to get a quick visual of students who are progressing independently and those who need extra support."

- Karen Tesitor

Free Live Training Webinars

Don't miss out on this month's free live training webinars! These webinars are designed to help school admins and teachers get the most out of their Ascend Math Implementation. Visit the [Customer Center Page](#) for upcoming live webinar topics and pre-recorded on-demand webinars.
