Your Ascend Customer Success team is available during the summer to support you along the way!

Math Fun

Why was the graph so good at chopping wood?
(Answer at the bottom of this newsletter)

Partner School of the Month

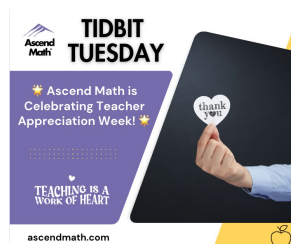

Center Academy at Riverview's students are building momentum and making impressive strides in their learning journey! More than 64% of students have completed at least one grade level of work, with over 30% completing two grade levels. Their data tells a story of steady growth, perseverance, and continued academic advancement.

"At Center Academy, we are committed to meeting students where they are academically and providing the support they need to grow with confidence. One of the ways we are strengthening math instruction across our campuses statewide is through the use of Ascend. By tailoring instruction to individual skill levels, Ascend helps students build foundational understanding while progressing at a pace that works for them.

Teachers have found the program to be especially valuable in reinforcing concepts that students may not have fully mastered. As one teacher shared, "Ascend has been a good way to reinforce math topics with students who might not have gotten enough time to work with them in past years." Another teacher noted, "Ascend has been highly effective in helping students review and master concepts they may have previously missed or forgotten." These targeted review opportunities help students strengthen essential skills and approach math with greater confidence.

Across all Center Academy, Ascend Math serves as an important supplement to classroom instruction, giving students additional practice and individualized support while allowing teachers to monitor progress and focus on specific learning needs. By incorporating adaptive technology into our math programs, we continue to see positive results and remain focused on helping every student achieve success at their own level." - *Dan Curry, Asst VP Operations*

We're proud to celebrate Center Academy's accomplishments and can't wait to see this momentum continue!

Tidbit Tuesday

Ascend Math now offers a weekly series of fun, math-related activities related to current events. These activities offer ideas for project based learning to promote

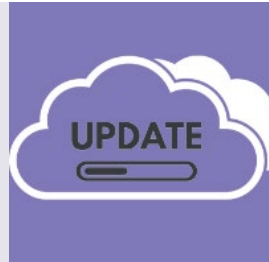

Tip of the Month

Share your students' growth with their parents or guardian easily with the Parent Letter report. [Learn about how to easily create Parent Letters on our Wiki.](#)

student conceptual understanding and engagement. Use these activities for entry tickets, exit tickets, extension activities and more! The posts are also all available [on our website](#). Follow us on [Facebook](#) or [Instagram](#) to see the weekly posts! [#AscendMathTBT](#)

A great way to monitor student progress anytime is using the Ascend Math *Student Progress Summary* report.

Product updates!

We have introduced several updates to our school and teacher dashboards and the Live Student Tracker with the goal of ensuring that your data is easy to find and read. We have also provided secondary teachers access to several additional reports.

Expanding Teacher Reach

School districts nationwide are working to support more students with limited staff. [In our latest blog](#), we explore how educators can expand their reach without adding personnel by using targeted, individualized instruction that helps students build skills while freeing teachers to focus where they're needed most.

Data Reviews

It's the perfect time to see how your students have progressed! Contact us for a [Data Review session](#).

Model Educator

The Ascend Math Model Educator program recognizes and rewards teacher and their students who work diligently to achieve growth in math. [Visit our website](#) to learn more and view the submission form. View Model Educators on the Ascend Math [National Hall of Fame](#) Page.

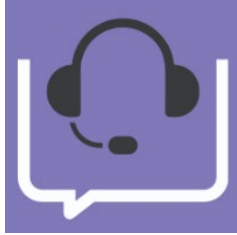

Tell-A-Friend

Know a peer who needs Ascend Math for summer school? [Share this link](#) with them to let them know What Sets Us Apart at Ascend Math!

Plus, [visit our website](#) and let us know who could benefit from Ascend Math! As a thank you we will send you an "I Teach Extraordinary Kids" t-shirt as a gift.

We would love to help the students of your friends or fellow educators!
