

# Ascend Math Partner Newsletter

September 2026

## Welcome Back!

Welcome back to all our schools! We would love to connect to answer questions, review your students' progress, and ensure your Ascend Math experience is great. [Schedule a session](#) at a time that is convenient for you. We're wishing you all a wonderful school year filled with progress, growth, and expanding minds!

---

## Partner School Of The Month

Teachers at Luther Ball School with The Ohio Department of Youth Services are off to a great start to the new school year supporting their students getting off to a strong start in math!

Students saw their average assessment scores increase from 38.9% on the pre-assessment to 91.8% on the post-assessment, showing significant progress in a short period of time.

The kickoff to the new school year looks really promising, and we're excited to recognize the Luther Ball - Ohio Department of Youth Services as our Partner School of the Month and celebrate the great start their students are making!

***"It is wonderful to see our teachers excited about the impact and future potential of Ascend Math! They have really embraced it from the beginning and are constantly looking for ways to most effectively utilize it with our students. Collectively, we look forward to ongoing student growth through the closing of learning gaps and addressing various math deficiencies, leading to marked improvements on district-wide and state assessments"***

**Matthew A. Grube**  
**Special Education/Title 1 Director**

Ascend Math now offers a weekly series of fun, math-related activities related to current events. These activities offer ideas for project-based learning to promote student conceptual understanding and engagement. Use these activities for entry tickets, exit tickets, extension activities, and more!

# TIDBIT

# TUESDAY

One math tidbit  
every Tuesday.

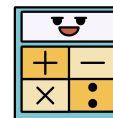

The posts are also all available on our website. Follow us on Facebook or Instagram to see the weekly posts!

## Tip of the Month

Study guides are an important component of every lesson. Students can type, write, or draw on their study guides within the Ascend Math interface; then save or print them. We explain all the ways study guides can be used [in this useful guide](#).

## Math Fun

What do geometry teachers have decorating their floor?

*(Answer at the bottom of this newsletter)*

## Product Updates

School administrators can now control when students can access Ascend Math with our new Curfew feature. Simply configure the approved access times in the Administrator Settings menu. Learn more about the Curfew feature and other updates in [What's New in Ascend](#).

## Logout Reminder

When students want to stop working in Ascend, they should logout and NOT click the box with the X in the upper right-hand corner.

Remember: "**Logout**, don't close out. X does not mark the spot."

## NCTM Effective Teaching Practices

NCTM's Effective Mathematics Teaching Practices are designed to help educators create math instruction that is purposeful, responsive, conceptually grounded, and centered on student thinking. Our new guide, *How Ascend Math Supports NCTM's Effective Mathematics Teaching Practices*, highlights the eight research-based practices and shows how Ascend Math and the related Compass Guides help bring them to life through personalized learning, targeted instruction, meaningful student discourse, and actionable data.
